Education

Priyadarshini College of Engineering

Bachelor of Technology in Artificial Intelligence and Data Science

2020 - 2024

Maharashtra, India

VMV Commerce JMT Arts JJP Science College

HSSC

2019 - 2020

Maharashtra, India

Technical Skills

Languages: Python, SQL, JavaScript

Technologies/Frameworks: Power BI, MS-Excel, GitHub, Machine Learning, MySQL, React.js, Next.js, Tailwind CSS

Developer Tools: VS Code, Jupyter Notebook, Google Colab

Experience

Verma Bajaj Co (Uganda Based)

Freelance Power BI Developer

March 2025 – Present

Remote

- Developed and maintained dynamic dashboards to support financial and operational decision-making.
- Utilized DAX and Power Query to generate KPIs and reports tailored to stakeholder requirements.

RoundTechSquare Pvt Ltd

Full-Stack Developer Intern

May 2024 - August 2024

Remote

- Collaborated with the development team on live projects to build and maintain responsive web applications.
- Implemented front-end designs and user interfaces using React.js, Next.js and Tailwind CSS.

Amantya Technologies Inc

Python Developer Intern

June 2022 - August 2022

Nagpur, India

- Developed and optimized Python applications while leveraging various libraries and machine learning models to enhance performance, automate workflows, and improve scalability.
- Designed and implemented predictive models, fine-tuned algorithms, and integrated data-driven solutions to drive efficiency, automate tasks, and support decision-making processes.

Projects

UPI Transaction Data Analysis | Github | Power BI, Excel, DAX, Data Visualization

- Analyzed UPI transaction data using Power BI and Excel to identify key trends and insights. Developed interactive dashboards showcasing transaction volumes, frequency, and behavior patterns.

Sales Insights | Github | Power BI, DAX, MySQL, Data Visualization

- Built an interactive sales analysis dashboard using DAX and MySQL. Visualized performance metrics and profitability trends with Power BI.

Speech Emotion Recognition | Github | Python, Machine Learning, Librosa, Scikit-learn

- Built a SER model using Python, Librosa, and Scikit-learn with MFCC and Mel feature extraction. Achieved improved accuracy through feature engineering and modular deployment.

Certifications And Achievements

Data Analytics Bootcamp: Gained hands-on experience with SQL, Excel, and Power BI through real-world projects focused on data-driven decision-making.

Tata Data Visualization Forage: Completed a job simulation, creating data visuals for business insights and executive decision-making.
